By law, it is only available to people who are **prevented** from independently using AC Transit's or BART's regular service due to disabilities or disabling health conditions.

ADA paratransit provides many travel opportunities for people with disabilities, but it has limitations. It is important that you understand the following characteristics of East Bay Paratransit before you apply.

- Advance reservations are required for each trip. There are no same day reservations.
- The requested pick-up time may be unavailable, and trips may be offered as much as one hour from the time requested.
- There is a 30 minute pick-up window for each reservation. Your vehicle may arrive at any time during that half-hour.
- It is a shared ride service. Others may be in the vehicle. Travel time may be considerably longer than taking a taxi or driving.
- Fares vary, depending on distance. When you make a reservation, your Customer Services Representative will tell you the fare.
